

## These Tech Tools Will Help You Move

Are you yearning for a simplified life? Downsizing to a smaller home is one of the best ways to save time and money. Making the switch to a smaller home, however, is anything but easy. There's a house full of stuff to organize, repairs to make, and potential buyers to impress — and that's before you get to buying a new home. Luckily, the rise of do-it-yourself apps and the gig economy have made it possible to move house with less time and effort than in the past. If you're looking for advice on using technology to make your move easier, this guide is for you.

### **Downsizing Resources**

Downsizing is a daunting task; fortunately, modern technology can help and the resource list below can help point you in the right direction. Charge up your smartphone and prepare to take advantage of some of the best sanity-saving tricks below.
